

# SAP Practice

## Practice Overview

Managing your company's IT projects takes up precious time and valuable resources. COMSYS' ERP practice enables your organization to maximize its strategic investments while minimizing risk.

We're an acknowledged industry leader with established world-class experience partnering with SAP and JDEdwards. Our alliances with SAP and JDE serve to enhance ERP's core competencies of knowledge transfer and project management.

Through our Project Management Office (PMO), we facilitate the coordination of our executive sponsor, internal users and our own project staff to ensure a positive and successful project outcome.

Following are some of the many services ERP provides to enable your enterprise to improve operational efficiency and optimize investments, while achieving performance goals and related metrics:

- Project Management
- Business Process Analysis
- Application Integration
- Functional Consulting
- Technical Development
- Implementations
- Legacy Migrations & Conversions
- Audits & Assessments
- Standardization
- Reporting & Analytics
- Knowledge Transfer & Custom Training
- Staff Augmentation

COMSYS' ERP practice, with over 15 years of experience, offers a wealth of practical and proven processes and methodologies.

*"We enable business solutions through the use of cutting edge technology and software. Our proven methodology, superior project management and custom-delivery approach to each client's needs differentiate COMSYS from other solution providers. We bring quality and extraordinary results to the table."*

—Joshua B. Blair, Practice Director, ERP Solutions
