

## SAP Practice

# SAP Service Line

Implementing SAP solutions can be a challenging, time-consuming and risky endeavor. COMSYS' SAP Practice Service Line enables our clients to maximize investment while mitigating risk.

Recognized as a leading SAP Service Integrator, COMSYS has the capabilities of delivering comprehensive implementation and production support services. Proud of our strong relationship with SAP, our SAP Service Line is recognized as both an SAP Services Partner and a GOLD Consulting Partner.

Our dedicated consulting force provides our clients with the most experienced and knowledgeable consultants in the market. Whether technical or functional, COMSYS is able to deliver a multitude of consulting services including:

- Implementations including ECC upgrades
- Legacy Migrations & Conversions
- Project Management
- Production Support/Center of Excellence
- Staff Augmentation
- Application & Technical Development
- Business Process Analysis
- Functional Consulting
- Audits & Assessments
- Systems Integration
- Knowledge Transfer & Custom Training
- Business Intelligence, Reporting & Analytics

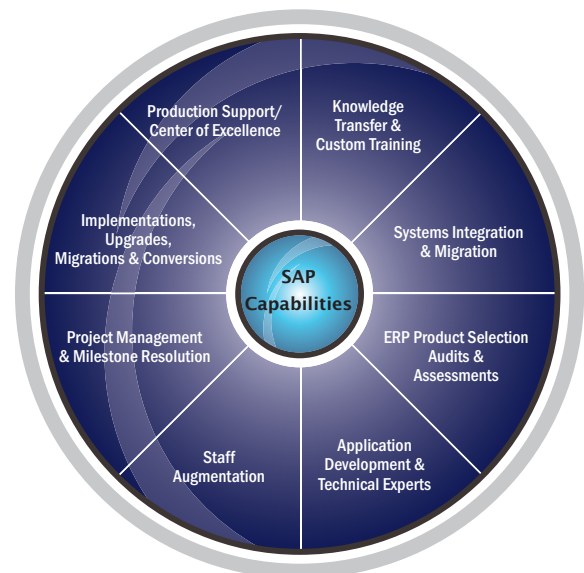

To further differentiate our SAP capabilities the COMSYS SAP Practice has created a suite of Service Lines focused on areas of expertise. Each service line is driven by a dedicated Service Line Managed possessing extensive subject matter expertise within the respective technology/process.

*"SAP continues to be a best-of-breed solution for COMSYS clients; lending to our continued aggressive investment in our SAP Service Line growth, and a commitment to deliver unparalleled excellence in services to all of our customers."*

—Joshua B. Blair, Practice Director, ERP Solutions

# SAP Practice

From traditional SAP Service Integration services to bleeding-edge consulting, Production Support to Strategic Staffing — COMSYS provides a flexible, proven and trusted partnership to our clients.

Below is a high-level overview of each of the Service Line Value propositions:

- **Administration & Infrastructure:** COMSYS can provide solutions which allow the customer to adequately plan, implement, and operate the infrastructure needed to support an SAP deployment. Focus areas include Solution Manager (Unified System Landscape, CHARM, Early Watch, Service Level Monitoring, etc.) XI, and MDM.
- **Global Delivery:** A Production Support and implementation offering providing a proven and comprehensive delivery alternative. Leveraging one of several off-site and off-shore Global delivery centers COMSYS is able to provide our clients with a more cost-effective solution for both implementations and production support.
- **Governance, Risk, & Compliance:** The SAP Governance, Risk, and Compliance Service Line focuses on Sarbanes-Oxley preventative and mitigating controls including the enforcement of the Segregation of Duties. COMSYS' "Express GRC" offering enables clients to implement GRC via a fixed-price, productized and rapid service.
- **SAP Public Sector:** COMSYS has developed a Public Sector Vertical focused on the uniqueness of this space and the nuances involved in Public Sector business process functionality. Regardless of SAP Public Sector arena, COMSYS possesses deep Public Sector knowledge and experience to deliver.
- **Business Intelligence:** COMSYS SAP Business Intelligence capabilities include BI upgrades, specialized reporting, executive management "cock-pits" and dashboard creation, multi-platform integration and comprehensive data warehouse architecture design. Business Objects also exists as an area of SAP BI Service Line focus.
