

SAP Practice

SAP Business Intelligence Executive Dashboard

Your SAP solutions provide a wealth of financial and operational data. Making sense of it all can be a daunting task. SAP BI Executive Dashboards give organizations the tools they need to address this problem, affording organizational leaders the ability to better manage, measure, and monitor their business performance. Used correctly, these dashboards can maximize an organization's investment in SAP by providing an on-demand snapshot view of key performance indicators, allowing executives to align operational processes and goals with corporate initiatives. Unfortunately, many SAP customers aren't prepared for the costs and complexities of deploying executive dashboards.

The expertise of COMSYS' Business Intelligence practice can help you navigate the implementation of SAP BI Executive Dashboards and provide your leadership with a readily accessible means of monitoring business KPIs. Using SAP NetWeaver Business Intelligence 7.0, our SAP certified consultants can deliver a complete and integrated SAP BI Executive Dashboard solution providing organizations with the decision making tools they need.

Our consultants will provide expertise in the following key areas:

- Identifying KPIs supporting your critical business objectives
- Performance analyses and data optimization
- Assess systems for performance management process requirements
